HEALTHCARE EXPERTISE

- Interim CFO of a DARPA funded biotechnology firm focused on chemical burn treatments for armed forces personnel. Constructed a complete financial model to arrive at enterprise value from which the firm raised critical equity financing. Led negotiations for private placements with individual and institutional investors.
- Interim CFO of a biotechnology consumer products business focused on the skincare segment. Helped lead the firm through the FDA approval process, ultimately securing valuable vouchers and approvals to sell product in the United States. Oversaw significant cost structure, working capital improvements and recapitalization.
