TRANSPORTATION & LOGISTICS EXPERTISE

- Financial advisor to heavy haul transportation company in the Pacific Northwest. Evaluated current financial performance and liquidity and worked with Private Equity sponsor and lender to conduct a strategic sale. Reduced expenses and managed liquidity throughout, ensuring the company had the run-way to complete the sale process.
- Financial advisor to medical transportation company based in Los Angeles. Company was in default with their lender and looking other options. We interfaced with the current lender, negotiating a forbearance and successfully brought multiple competitive refinance bids to the company.
