## CONSTRUCTION EXPERTISE

- Served as Vice President Finance at Davis Wire (aka Davis Walker) after it filed for protection under Chapter 11 of the U.S. Bankruptcy law. Davis Wire was a major processor of steel into many variations of raw and coated wire. Reece assisted management with the planning and execution of turnaround components including plant sales and consolidations, settlement of environmental and litigation claims, restructuring of the organized labor agreements and mitigating massive negative steel supply chain and market issues. The company was successfully returned to profitability and exited bankruptcy via a sale of the reorganized business.
- Interim CFO of Kinetic Systems, A global high-purity piping mechanical contractor specializing in connecting tank farms at large Chip, Solar, Pharma, Research Facilities around the globe to the Fab interior clean rooms. Reece worked side by side with the new President and management team to significantly reduce overhead costs, Clean up and rationalization of project cost estimates and build the company's clean room equipment manufacturing and facilities management services which drove substantial improvements in profitability and cash flow.
- Independent board member for Structural & Steel Products which manufactured heavy steel products for the highway and transportation sectors including lighting masts, guard rails, and overhead signage racks. Improved operational performance via setting aside free cash flow for high ROI projects including plant reconditioning, new press parts, expand overhead crane system and proper lighting and ventilating plant.
- Advised multiple construction, demolition & remediation companies facing liquidity and performance challenges including Cleveland Wrecking, NCM and NorthStar where he worked with management and the company's stakeholders to solve operational performance, balance sheet and liquidity problems.
