## HEALTHCARE

- As financial advisor to a health insurance company, developed tools used to manage liquidity and financial projections after regulators temporarily suspended the company's ability to sell insurance due to large losses after implementation of ACA.
- Served as financial advisor to physical therapy provider with over 100 clinics nationwide enabling company to survive after new billing and collections system implementation failed.
- Evaluated financial and operational health of a chain of diagnostic imaging centers and provided recommendations resulting in the existing lender supporting its turnaround plan.
